

# The Compassionate Vet Pledge

I hereby pledge that I will never serve as the vet of record as required by the Animal Welfare Act for a commercial kennel.

I state that I find it to be medically and ethically wrong to breed female dogs when they are only six months old, to breed them every time they come into season, to breed female dogs over the age of five, to keep dogs in cages for their entire lives, to deny dogs the ability to run on the ground, to keep dogs in cages outdoors in all weather without heat or air-conditioning, to fail to provide them adequate medical care and nutritious food and to kill them when they no longer produce.

I consider myself to be a Compassionate Vet.
